

//////// THE THIRD ANNIVERSARY

OPEN³ STACK

AUTOMATE ALL THE THINGS //////////

OpenStack Mission

To produce the
**ubiquitous open source cloud computing
platform**

that will meet the needs of public and private
clouds regardless of size, by being simple to
implement and massively scalable.

Three years in...

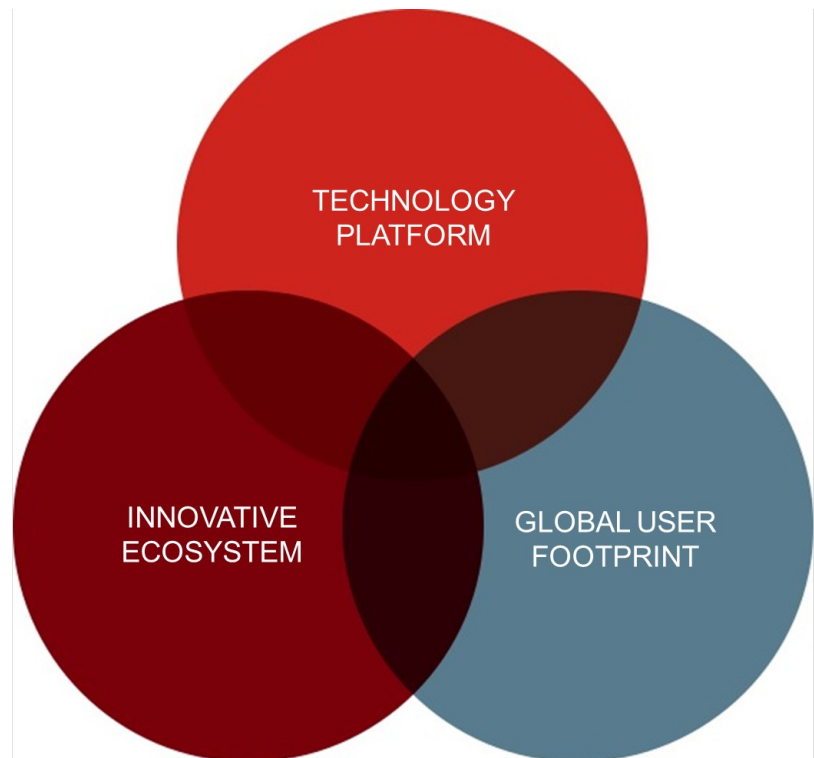

- Expanded scope from Compute and Object Storage to Compute, Storage, Networking and Shared Services, with rich ecosystem of Integrated projects emerging
- OpenStack has public clouds in more cities than Amazon has regions
- Major private cloud users at Best Buy, Bloomberg, Comcast, Fidelity, PayPal and more
- OpenStack has become the center of cloud innovation – more than 1,000 developers, supported by major IT companies

Why are we succeeding?

- ▶ Successful platforms have three forces:
 - Technology
 - Ecosystem
 - Users

Fastest Growing Global Open Source Community

Summit Attendee Growth

Core Values Remain

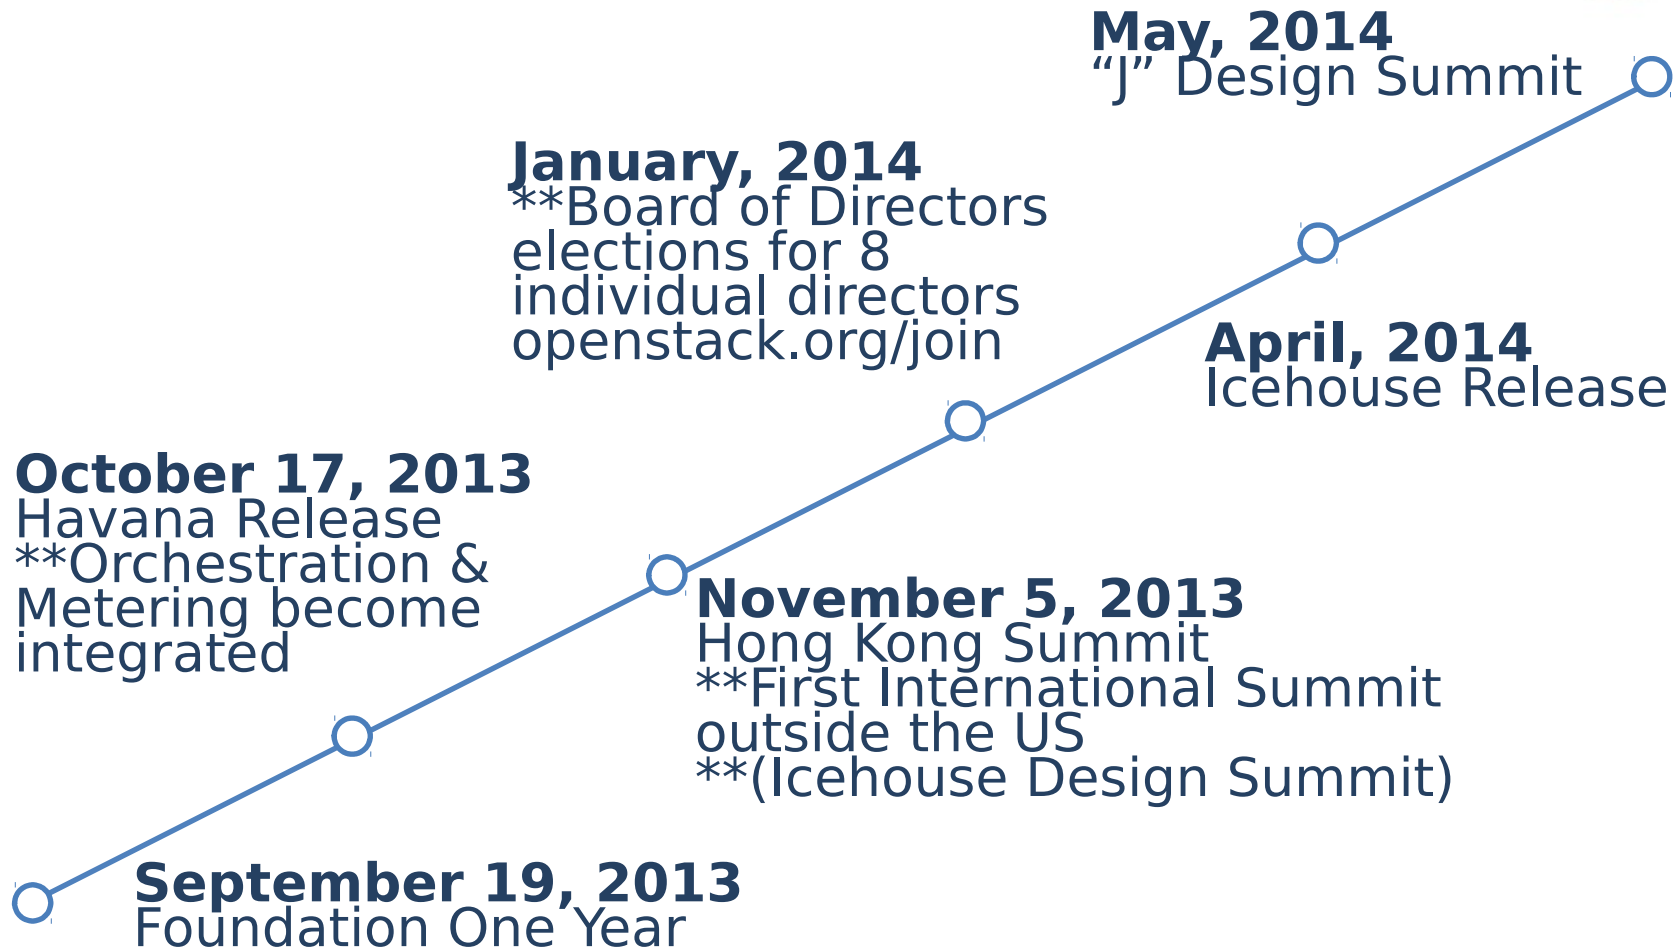

- We're keeping sacred what has made OpenStack so successful
- Open source is essential to unlock the value of cloud computing
- Four opens:
 - Open Design
 - Open Development
 - Open Community
 - Open Source

On the horizon

- New projects & functionality, but also focus on stability and maturity
 - Orchestration and Metering become integrated in Havana
 - DBaaS and Bare Metal currently Incubated projects
- Focus on education and talent development
 - New Operations and Security Guides
 - Ecosystem and community discussions to accelerate training and certification
- Reaching application developers

How you can help

Infrastructure Team

- Want to help run systems powering OpenStack development?
- Read the documentation at <http://ci.openstack.org/>

Documentation

- Contact Anne Gentle <anne.gentle@rackspace.com>
- or visit <http://wiki.openstack.org/Documentation/HowTo>

Translations

- Do you speak multiple languages?
- Join the Internationalisation team: <https://wiki.openstack.org/wiki/I18nTeam>
- Or contact Ying Chun “Daisy” Guo <guoyingc@cn.ibm.com>

Ask.OpenStack.org

- Please participate and help answer questions

User Profile

- If you are an OpenStack user, please create a profile (public or private) at openstack.org/user-survey

// DEVELOPERS // USERS // OPS

香港 HONG KONG

- November 5-8, 2013 – Hong Kong!
- Registration and sponsorships now open
 - New: Two tiers of registration, please read carefully
- Call for speakers **deadline July 31**
- Book your travel early, room blocks are filling up!
- Travel Assistance Program – applications in July
- More details at **openstack.org/summit/hk**
