Roberto Galoppini

Roberto has over 20 years experience in the computer industry, and has spent the last 10 years working in the intersection of open source software and business development.

Roberto has taken an active interest in different open source projects and organizations, he also served on some advisory boards, and helped large IT vendors, open source vendors and customers to design and deploy their open source strategies. He works at SourceForge at its Senior Director of Business Development.

Amanda Brock

Director/ Solicitor, Origin, International Technology Law, London was General Counsel, of Canonical – lead commercial sponsor of the open source operating system Ubuntu - from 2008 to 2012, where she managed the worldwide legal function in Canonical.

Amanda currently acts as legal adviser to a wide range of technology clients on areas from start up to open source. With 20 years of experience as a practising lawyer, Amanda advises on topics including business strategy and commercial, contract, IP and IT law.

Rui Ferreira

Researcher at Instituto de Telecomunicações, within the Advanced Telecommunications and Networks Group, doing research and development on novel architectures for networking and services. Rui is involved in several Open Source projects, both in his research work and private time. Currently he acts as the co-maintainer for the opensourceprojects.eu deployment.

Thank You!
