CODE REVIEW KATA WITH GERRIT

Manuel Vacelet / @vaceletm

© Enalean, 2013

BIO / CONTEXT

- Enalean CTO & **Tuleap** developer

WHY TO REVIEW CODE?

WHERE IT COMES FROM?

- Well known practice in FLOSS world
- Various strategy: patches (LKML), "pull requests", ...

GERRIT

http://code.google.com/p/gerrit/

- Comes from Android project
- Git only
- users: Eclipse, QT, Mediawiki, Sony, Motorola, Google, SAP, ...

PUSH FOR REVIEW

```
git push ssh://vaceletm@gerrit.tuleap.net:29418 HEAD:refs/for/master
```

- One commit == One review
- Shape your commits (history rewriting!)

COMMITS: SIZE MATTERS

- Beware The Big One
- Difficult to grasp it
- Tiny not better whatsoever

M	src/www/account/index.php		+32, -0	Side
M	tests/simpletest/common/user/UserTest.php		+2, -2	Side
M	tests/simpletest/common/user/UserTestBuilder.php		+1, -1	Side
M	tools/utils/purge_bad_sshkeys.php		+2, -2	Side
			+1356, -145	

SHAPE YOUR COMMITS!
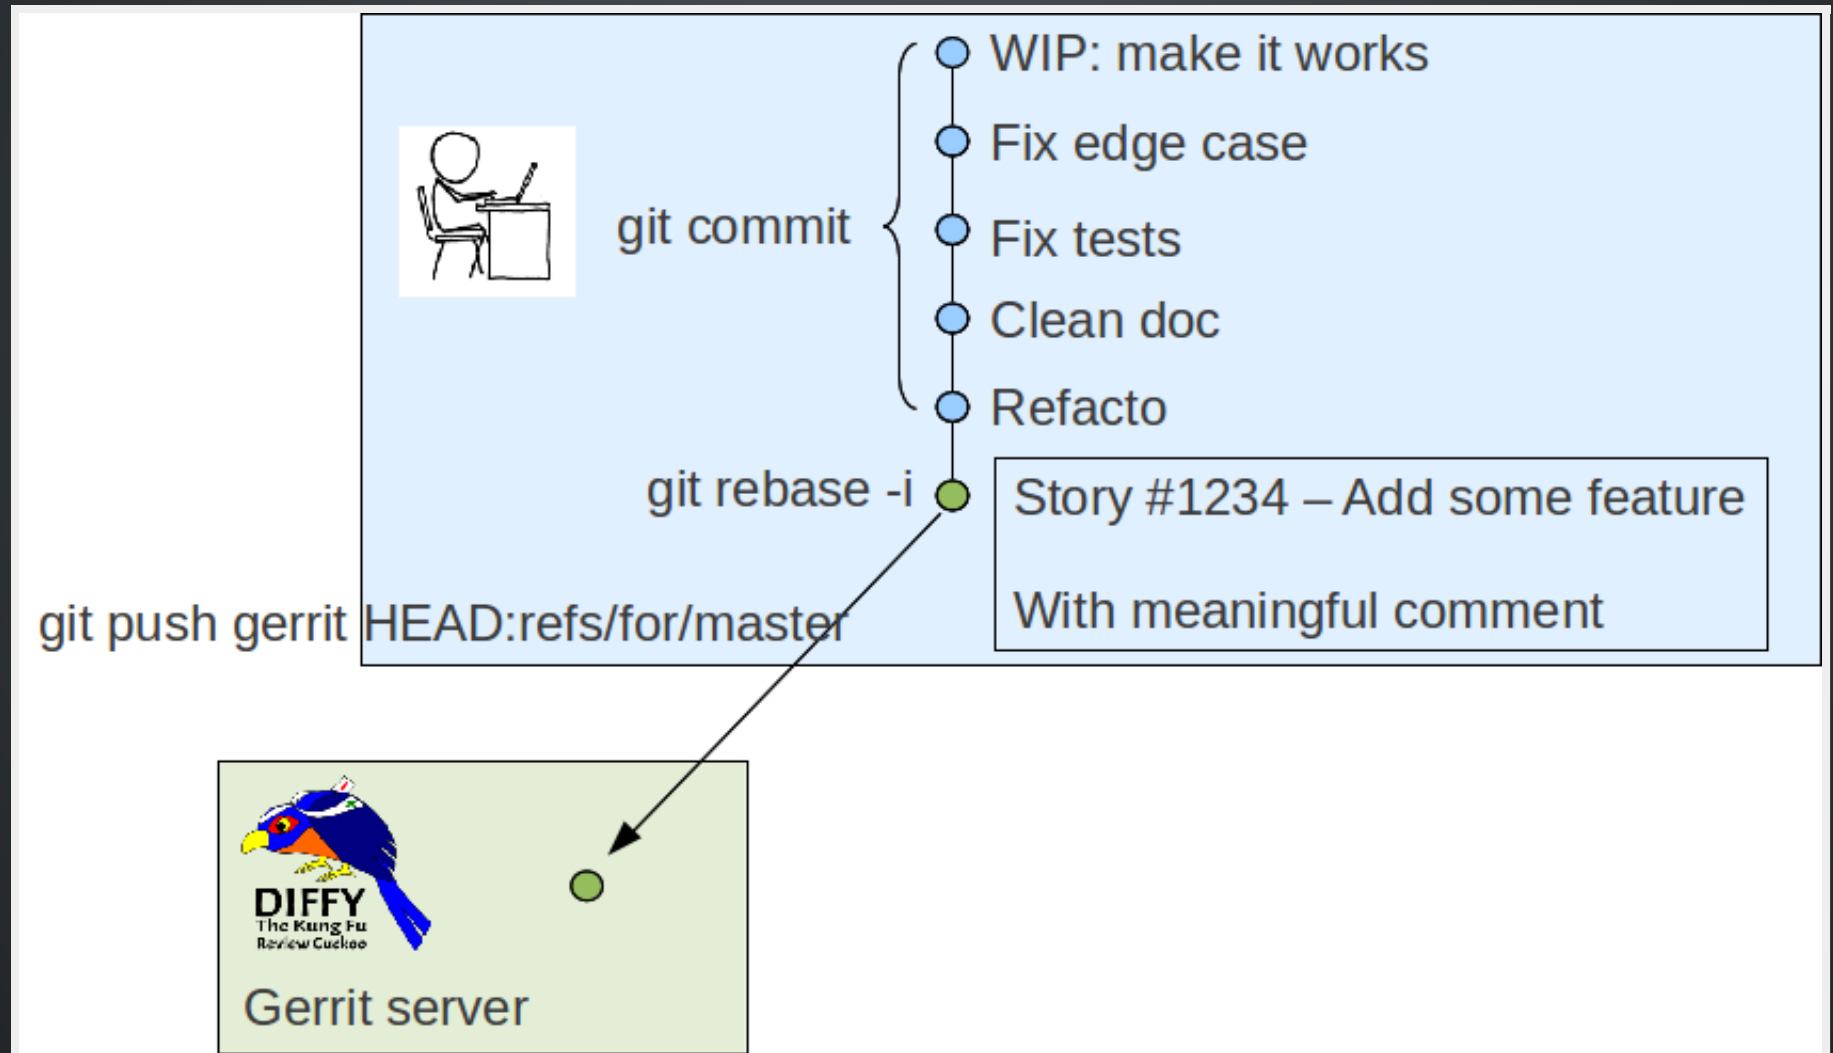

GOOD PRACTICES

- Reduce the wait list
- Define review rules
- Damn fast Continuous Integration

CONCLUSION

- Powerful
- High learning curve
- @Enalean: highest dev ROI this year
