THINK

What's next for Open Source Communities?

Community Summit

October 4th, 2013

Gabriele Ruffatti
Technical, Innovation & Research Division of Engineering Group
President, OW2

**Technically efficient**

Economically efficient

Strategically efficient
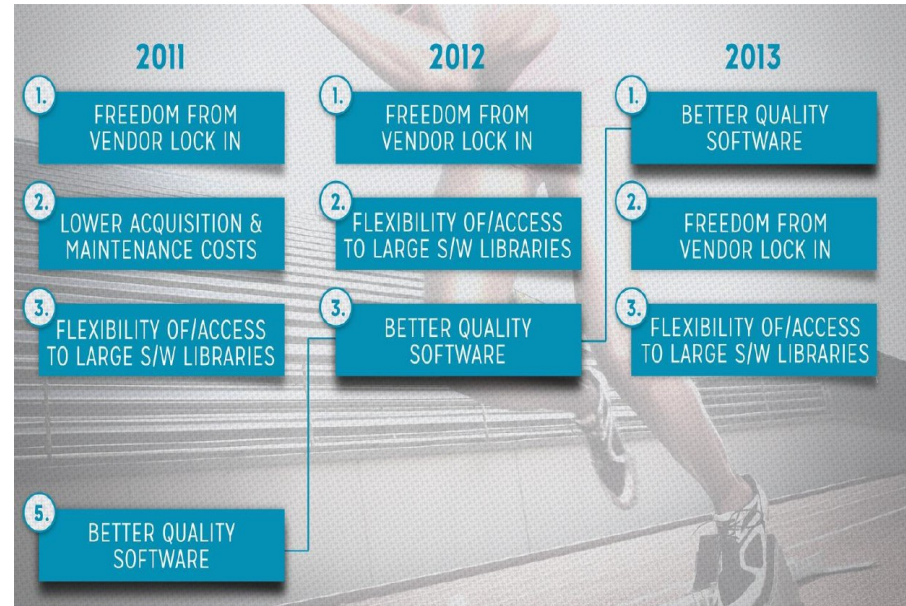

Socially efficient

Now we know: OSS is an innovator factor where quality gains momentum

Where it's leading: #1 Innovation

Decision factors: #1 Quality

*Source: The 2013 Future of Open Source Survey, Black Duck Software*
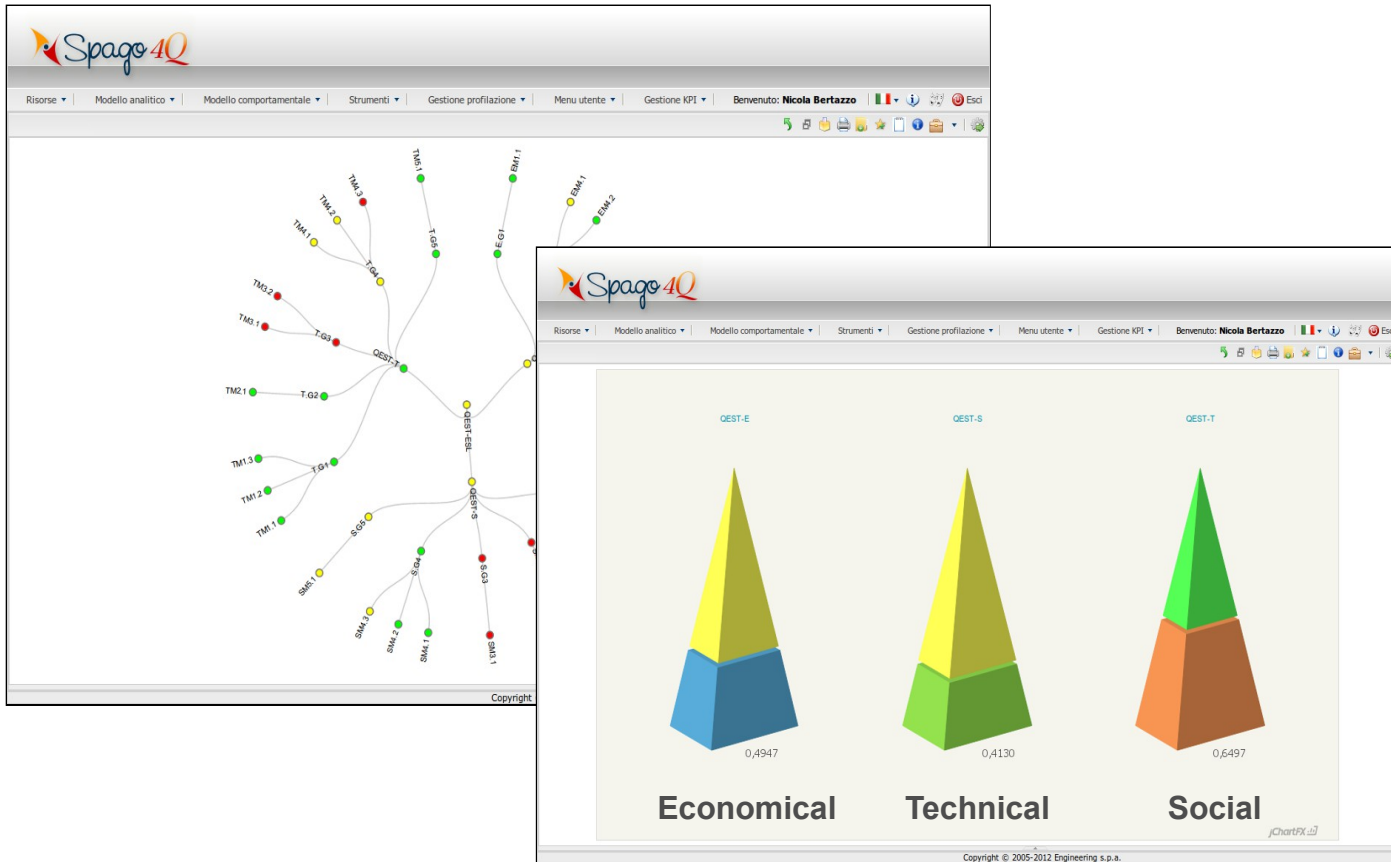

# What's innovation: giving shape to ideas (OSS helps … a lot, here)

Open Source refers to

collaboration, sharing and diversity

that are

powerful tools to support innovation

From a short-term monetary return, to a long lasting performance evaluation of 3 dimensions of analysis

We have momentum now

## Nexus of Forces

Social

Mobile

Information

Cloud

Gartner.

Digital Disruption

Delivering value at lower cost, with faster development times, with greater impact on user experience than any-thing that came before

FORRESTER

A new Society

Volatile
Uncertain
Complex
Ambiguous

➡

Vibrant
Unreal
Crazy
Astounding

Saatchi & Saatchi CEO Kevin Roberts

OW2

- ⮑ **Back to basics**
  - ▪ technology and ethical values
- ⮑ **Joining research & industry activities**
 - ▪ collaborative innovation
- ⮑ **Going beyond community boundaries**
  - ▪ bringing perceived value to people

OPENNESS

value

Transparency

Collaboration

Freedom

The community platform providing long-term sustainability to technology innovation through technical support, governance of initiatives and global communications

The Open Source Software Community for Collaborative R&D projects

Global Communication Services

Governance and Community Services

Technical Infrastructure Services

OW2 SQuAT

Measurement of the code quality & community performances

A new ethical revival adding freedom to collaborative innovation and value to its results
